

K-love is a calming non-avasive station that I can have on while I clients are in my office. The effect on the local community would be unfavorable if it was to be removed. Our children need a Possitive and encouraging radio station to listen too while growing up!!If they were to take it off the air it would be detirmental to me and many others who listen every day. Services provided by K-love serves the public in a healthy, clean, & Godly way. How wonderful it is to listen to rock, pop, etc. without bad words and emphases on killing or degrading women. Removing K-love from the air would be a very sad day.  
Thoughtfully, from a loyal listener, Merri
